

# TORQUE™

## DATA TRANSLATION & MAPPING

### Seamlessly Connect Separate Systems with a Single Solution

Connecting disparate and proprietary software systems to create a single source of truth for managing day-to-day operations is a challenge, especially when each system has a unique set of integrations.

That's exactly why Motorcity Systems developed TORQUE™, a cloud-based connectivity platform that enables cost-effective, scalable integrations and adapts to your unique business needs with:

**Customizable Workflows** – TORQUE enables communication to flow between multiple systems to create a single, integrated management platform for total fleet visibility and control.

**Seamless Communications** – TORQUE standardizes data from each system, allowing common solutions such as transportation management systems, telematics, and fuel cards to communicate with each other.

**Scalable and Versatile Integrations** – TORQUE allows your solutions to grow with your company by reducing infrastructure costs and time spent managing and updating on-premise equipment.

**Integrations with Best-In-Class TMS** – Take advantage of robust integration possibilities across multiple TMS platforms and providers. Motorcity Systems is continually adding new capabilities, services, and expertise to help improve your operations.

**Industry Expertise and Support** – Benefit from Motorcity Systems' courteous, knowledgeable, and reliable customer support from knowledgeable industry experts.

### A Cloud-Based Transportation Solution Platform

TORQUE is just one component in an entire family of products designed to drive results across the transportation industry.

Motorcity Systems delivers software solutions and integration services that enable motor carriers to modernize end-to-end operations. Our solutions seamlessly integrate and are optimized for scalability, improved visibility, dispatch-to-driver communications, and a unified workflow experience. Our flexible deployment methodology allows each fleet to evolve at their own pace, maximizing the impact of your capital investments for faster ROI.

Use one. Use a few. Or take advantage of the entire platform to improve operations and drive growth.
