Cloud-Based Solution

Simplify and Modernize EDI Connectivity with a Cloud-Based Solution

Outdated and underperforming EDI systems are on the way out. It's time to upgrade.

EDI is still the de facto standard for conveying freight order and status information. Yet with legacy value-added networks (VANs) EDI Compliance comes with unnecessary costs and headaches. Upgrade your EDI approach by connecting to a modern, cloud-based solution.

WIRE™, a Cloud-native solution from Motorcity Systems, seamlessly integrates legacy EDI transaction sets from your trading partners with the latest translation and connectivity methods to provide higher quality data and give fleets added flexibility and scalability to support new business growth.

WIRE's EDI technology simplifies and shortens the process of connecting with both partners and internal systems - driving success for carriers by improving the speed, efficiency, and quality of their information exchange by using:

Simplified Onboarding for straightforward setup with a clean, user-friendly interface

to flatten the learning curve for both staff and trading partners.

Robust Automation capabilities that streamline time-consuming and error-prone manual tasks.

End-to-End Integrations with error-free mapping and translation to exchange bills

of lading, shipping manifests, statuses, invoices, remittances and more.

Simplified Transaction-based Model allows forecasting costs even with changes in volume.

Industry Expertise and Support from Motorcity Systems' knowledgeable and reliable team.

Upgrading Transportation Technology in the Cloud

WIRE is one of several products from Motorcity Systems driving breakthrough results across the transportation industry.

Motorcity Systems puts motor carriers on a fast track to modernize their IT systems and operations by using a suite of solutions that are optimized to perform at scale for better visibility, dispatch-driver communications and user workflows.

Better yet, our flexible deployment methodology allows you to evolve at your own pace and maximize the return of your investment. Use one. Use a few. Or take advantage of our entire platform to improve operations and drive growth.
